

NC Space Grant Education Mini-Grant Program Request for Proposals

BACKGROUND

NC Space Grant strives to inspire and engage North Carolinians to explore the universe and our own planet by capitalizing on the National Aeronautics and Space Administration's (NASA) unique contributions in exploration and discovery. Our program aims to support science, technology, engineering, and mathematics (STEM) research, education, and public understanding that support current and future success at NASA and across North Carolina.

To better respond to statewide needs, NC Space Grant will conduct a rolling call for requests for proposals (RFPs) to support education and/or public outreach efforts from organizations across North Carolina that wish to engage in innovative projects and programs in STEM disciplines. Proposals should be for the development innovative projects relevant to community needs that are aligned with one or more of NASA's Mission Directorates. NASA Mission Directorates include:

- [Aeronautics Research](#)
- [Human Exploration and Operations](#)
- [Science](#)
- [Space Technology](#)

Mini-grant proposals shall also respond to one or more of NC Space Grant's strategic goals:

1. Support new knowledge generation to meet NASA-relevant interdisciplinary research and educational needs.
2. Prepare the next generation of STEM workers with the technical and professional skills to address current and future workforce needs.
3. Provide access to information and training in NASA-relevant subject matter to formal and informal educators, as well as to the general public, to inspire and educate.
4. Increase North Carolinians' awareness of, and opportunities for engagement with, NASA-related research, education, and outreach products and opportunities.

For more information about NC Space Grant's Mission and Strategic Plan please visit:

<https://ncspacegrant.ncsu.edu/about-space-grant/mission-vision/>

OBJECTIVES

Mini-grants shall be used to cultivate new activities and not support ongoing programs. Innovative ideas and new approaches, particularly if they have the potential to lead to sustained activities beyond the duration of the grant, are particularly encouraged. Special consideration will be given to those proposals that are exceptionally innovative and/or have the potential for high impact.

Examples of eligible projects include but are not limited to: exhibits (permanent, traveling, or virtual); STEM programs serving educators, students, and the general public; partnerships with informal education providers (e.g., youth groups, after-school programs); staff professional development; informal education programs; and curriculum support for informal science education (e.g. technology development).

NC Space Grant Education Mini-Grant Program Request for Proposals

AWARD LEVEL

- The maximum award level is \$3,000.
- There is no deadline to submit a proposal. However, proposals will be processed and peer reviewed on a rolling basis in the order in which they are received.
- Awards will be made to ensure statewide reach and are subject to availability of NASA funding and the quality of submitted proposals.
- All awardees will be required to submit a final report.

ELIGIBILITY REQUIREMENTS

- Proposals will be accepted from the following: accredited institutions of higher education in the state of NC, industry, public/private schools/districts, museums, and other not-for-profit educational organizations.
- Proposals that serve underserved and underrepresented communities are strongly encouraged.

PROPOSAL CONTENT

A. Title Page (1 page)

The cover page must include the following items: project title, name of the applicant who will lead the project, job title, name of the institution (on behalf of which the proposal is being submitted), address, phone number, and email. University-affiliated applicants must have approval from their office of sponsored programs prior to submitting a mini grant proposal to NC Space Grant.

B. Project Description (4 pages maximum)

Provide a detailed description of the proposed project that addresses the following items:

1. **Purpose:** Define the education and/or public outreach need that is being addressed.
2. **Design and Methodology:** Provide a descriptive overview of the proposed project. Provide a rationale for the education methodology that will be used.
3. **Relevance:** Clearly describe how the proposed project is related to a NASA Mission Directorate and addresses at least one NC Space Grant strategic priorities. Describe the utilization of any NASA education materials, expertise, and/or ways in which NASA's unique contributions to exploration and discovery are addressed by the project.
4. **Output and Outcomes:** Describe the intended beneficiaries/ participants/ audience (e.g., basic demographics), estimated target numbers, and plan to collect data for final reporting purposes. Describe how the program will actively seek the involvement of women, underrepresented populations, and persons with disabilities.
5. **Dissemination:** Discuss plans for disseminating information about the project to the broader community.

NC Space Grant Education Mini-Grant Program Request for Proposals

6. **Management:** Describe roles and responsibilities, as well as the relevant qualifications and experience of the Project Lead. Identify other key personnel and/or partners that play key technical or operational roles, and describe their experience, roles and responsibilities.
7. **Timeline:** Identify significant benchmarks, milestones, deadlines, and dates. A chart or a narrative are acceptable formats.

C. **Applicant/Project Lead Bio (2 pages)**

The applicant/project lead must include a short biographical sketch or resume (not to exceed two pages) that includes his/her/their applicable education and professional experience.

D. **Budget and Budget Narrative (2 pages)**

Provide a detailed budget in the format outlined in Appendix A along with a budget narrative.

Unallowable expenses include:

- Equipment
- Food and beverages
- Facility renovations
- Promotional materials (e.g. T-shirts, etc.)

PROPOSAL FORMAT

The following guidelines and restrictions apply to all proposals. Proposals not meeting these requirements may not be considered.

- Proposals must be submitted as one PDF file.
- Proposals should be one-sided, single-spaced on standard 8 ½ x 11 paper, no smaller than 12 point font and with no less than one inch margins throughout. Text restrictions are inclusive of all illustrations, tables, charts, exhibits, etc.
- All pages must be numbered sequentially.
- Proposals should contain only appendices and attachments specifically called for. Other appendices and attachments are not allowed and will not be evaluated.
- All information you wish for reviewers to consider should be included in your proposal. It is not acceptable to refer reviewers to websites or other external sources for additional information or as evidence for your narrative.

PROPOSAL SUBMISSION

- Proposals should be submitted online at the following link: https://go.ncsu.edu/ncspace_proposals
- Electronically submitted proposals must contain all required signatures (university-based proposals).

PROPOSAL REVIEW AND EVALUATION

Mini grants will be peer reviewed on a rolling basis. The following areas will be considered in the evaluation:

NC Space Grant Education Mini-Grant Program Request for Proposals

Educational Merit (30%)

- Clarity and relevance of the purpose and need of the proposed project; and
- Degree to which the project design addresses STEM instruction and learning related to NASA exploration and discovery.

Relevance to NASA and NC Space Grant Coals (20%)

- Degree to which the proposed project utilizes NASA education materials or NASA's unique contributions to exploration and discovery; and
- Alignment of the project to one or more NC Space Grant's strategic objectives.

Outputs and Outcomes (20%)

- Targeted number of beneficiaries/participants/audiences (estimated numbers and demographics);
- Plan to reach targeted beneficiaries/participants/audiences, including efforts to encourage the involvement of women, underrepresented populations, and persons with disabilities; and
- Dissemination plan or other communications products.

Management (15%)

- Qualifications and experience of the project manager;
- Organizational capacity and experience to carry out the proposed work; and
- Realistic timeline for significant benchmarks, milestones, deadlines, and dates.

Budget (15%)

- Clarity and reasonableness of the funding request; and
- Degree to which proposed effort demonstrates effective use of funds.

POINT OF CONTACT

Questions regarding this announcement, including applicability of your proposal ideas, please contact Ms. Jobi Cook, NC Space Grant Associate Director at jobi_cook@ncsu.edu or (919) 515-5933.

NC Space Grant Education Mini-Grant Program Request for Proposals

APPENDIX A: NC Space Grant Education Mini-Grant Budget and Narrative

Institution: _____
Applicant/Project Lead : _____
Period of Performance: _____ (cannot exceed one year)

Budget Category	Requested Funds	Cost-Match	TOTAL
Salaries	\$ _____	\$ _____	\$ _____
Travel	\$ _____	\$ _____	\$ _____
Supplies	\$ _____	\$ _____	\$ _____
Other (Explain)	\$ _____	\$ _____	\$ _____
Indirect Costs**	\$ _____	\$ _____	\$ _____
TOTALS:	\$ _____	\$ _____	\$ _____

Budget notes:

- Mini grant budgets cannot exceed \$3,000.
- Unallowable expenses include:
 - Equipment (computers, software licenses, etc.)
 - Food and beverages
 - Facility renovations
 - Promotional materials (e.g. T-shirts, etc.)
- Indirect Costs (**): Given the small funding level of these projects, North Carolina State University has waived indirect cost for their faculty applying to mini grants. While we cannot require it, NC Space Grant encourages other University campuses to do the same. For non-University applicants without a federally negotiated indirect rate, a 10% rate would apply.

Budget Narrative:
